

## SECURITY FORUM NOTICE

Notice issued March 1, 2010

The 2010 Midwest Consolidated Security Forum, “Securing the Second Decade”, will be held at the Jack E. Reardon Convention Center in Kansas City, KS on Tuesday, April 20 and Wednesday, April 21. Looking back at the last decade’s security concerns leads to the question of how to prepare for the next.

Supporting MCSF organizations include: **InfraGard, ASIS International KC, HTCIA MO-KAN Chapter, ISSA KC, the Partnership for Emergency Planning, MARC, BENS, and ISACA. This year’s Platinum level sponsors include the FBI and Kansas City Power and Light.**

This packed, two-day event will include static displays (FEMA, FBI and Kansas City area regional emergency response teams), sponsor and vendor exhibits/displays, educational tracts, and numerous interactive opportunities with cutting edge security professionals. This year’s general session forum includes national and regionally recognized speakers addressing nationwide and regional security, as well as three breakout tracks representing Cyber/IT, Emergency Response and Physical Security interests, the opportunity for Cyber/IT training, and a surprise local entertainment venue at the opening day, first evening reception.

Several distinguished speakers include:

- Professor John Radsan, William Mitchell College of Law; Director, National Security Forum, and former CIA and Justice Department
- Jenny Menna; DHS Headquarters DC
- Kevin Johnson; SA FBI Quantico, VA
- William Cheswick; AT&T Research Lab. Lead Technical
- Emcee- Jeff Lanza; retired FBI Media Spokesperson

Attendee registrations, which include all sessions, meals and the reception, are being accepted online at [www.mcsfonline.org](http://www.mcsfonline.org). **Discounted early bird registration \$180 by March 20, includes eligibility for a Gateway Netbook early bird drawing.** After March 20 the registration fee will be \$200. Early registration is encouraged as more popular sessions and topics may have limited space.

Sponsor and vendor registrations are also being accepted online at [www.mcsfonline.org](http://www.mcsfonline.org) and space assignments will be on a first come basis for each category.

You may learn more about MCSF2010, the schedule, speakers, and related topics by visiting [www.mcsfonline.org](http://www.mcsfonline.org). Look forward to seeing you there!
